

Scrub-A-Claim™ *clean claims = fewer denials*

Find-A-Code's Scrub-A-Claim is a comprehensive medical claim scrubber and validation tool for the CMS1500 and 837 medical claim forms. Scrubbing and validation of your medical claims has never been easier. Avoid coding oversights and keep one step ahead of denials prior to submitting your claims to the payer.

See the coding rules applied to your claim(s) such as:

- Medical Necessity
- Usage Validation
- NCCI Edits based off LCD's specific to your location
- Medically unlikely procedures and edits
- Cross Walk Edits such as Procedure to Diagnosis and Procedure to Procedure
- Demographic Edits such as Age and Gender and Location
- Bundling and Unbundling

Start by entering your claim information. Select your Medicare carrier or submit the Zip code for the Place of Service. Be sure you enter the correct claim date as it will impact the rules, such as ICD-9 or ICD-10 edits. Complete all of the claim information requested. The Claim ID, may be useful information when viewing your claims at a later date.

Claim Information

Medicare: (select a Medicare carrier or enter a ZIP code below) ▼
or ZIP Code: 84651
Claim ID: BCB3232132
Claim Date: 10/14/2015
Patient Gender: Female ▼
Birth Date: 10/09/2013
or Age: 2

Diagnosis Code Set: ICD10 ▼
Diagnosis Codes:
1: H66.001
2:
3:
4:
5:
Add Diagnosis

Add as many applicable diagnosis codes as needed. Be sure the drop down box is on the correct code set you are using to avoid errors either ICD-9 or 10. To change the code set click on the down arrow next to the code set you are using, such as ICD-10 shown here.

Diagnosis Code Set: ICD10 ▼
Diagnosis Codes:
1: H66.001
2:
3:
4:
5:
Add Diagnosis

To add additional diagnosis codes,
click on
"Add Diagnosis"

Once you have entered the Demographics and claim information, you are ready to enter your claim information and procedures.

Begin entering line item #1.

Select the Place of Service. Enter the procedure code and from and to dates. Notice, the UNITS/DAYS will default to “1”, this can be changed if needed. Enter any applicable modifiers. Next you will select the diagnosis codes in the order you will report them on your claim with line item #1.

Claim Procedures

Line 1 (These lines do not need to correspond with the line #s on your claim form.)					
POS:	11-Office				
Procedure Code:	99213	Modifiers:	Diagnosis Codes:		Tools:
From:	10/15/2015	1: <input type="text"/>	Primary:	1: H66.001	Copy as a New Line
To:	10/15/2015	2: <input type="text"/>	Secondary 1:	None	Remove this Line
Units/Days:	1	3: <input type="text"/>	Secondary 2:	None	
		4: <input type="text"/>	Secondary 3:	None	
Add a New Line Clear/Restart this Claim Scrub this Claim!					

Line Item #2 on your claim

To add a “NEW LINE” simply click on: Copy as a New Line
This will give you an exact duplicate of Line Item #1, now you can change the procedure codes and select the appropriate diagnosis codes for line Item #2. To add a completely new line, with none of the above information click on “ADD A NEW LINE” located at the bottom of the claim scrubber. Repeat this as many times as needed until you have all of the appropriate codes. Clicking the down arrow next to the diagnosis gives you the option of selecting the order of the diagnosis codes with the procedure code, such as Primary, Secondary and so on. Your claim is now ready to be scrubbed!

Claim Procedures

Line 1 (These lines do not need to correspond with the line #s on your claim form.)					
POS:	11-Office				
Procedure Code:	99213	Modifiers:	Diagnosis Codes:		Tools:
From:	10/15/2015	1: <input type="text"/>	Primary:	1: H66.001	Copy as a New Line
