1. Page title shortened and moved inline with search bar
2. Uncommonly used "Special searches" have been moved into the "special" tab
3. "Index search" button has been moved to the right
4. Search options have been moved to the bottom of the left panel and expanded with new features
5. The "switch to expanded search" button has been removed and the search sections now are individually expandable
6. Pagination links have been replaced with buttons to "show more" when applicable
7. A new "By Category" tab has been added - check it out!
8. Colors have been adjusted for better contrast and readability (various places, not marked)

We'd love to hear your feedback, let us know at findacode.com/support!
